

# How to make a C-Ration Coffee Cup

- Obtain the B (large, dry) can from the C-ration meal
- Follow steps 2 thru 4 in How to Heat a C-Ration Meal above.

## Deluxe (reusable) Version\*

- Remove the top of the can completely.
- Obtain 2 lengths of the bailing wire off of the C-Ration case.
- Obtain a solid, sturdy stick about 4 inches long.
- Notch out a groove around the stick near both ends.
- Wrap each length of wire around both top & bottom ends of the can and twist the wire around itself leaving enough twisted wire to twist around the grooves in both ends of the stick 1 inch from the can creating a very nice handle.
- Trim off excess wire.
